2. Fold the strip in half at **Fold 3** so the turnips are on the outside, and then unfold it again.

3. Fold and crease diagonally at **Fold 4** to make the strip into an "L" shape.

4. Fold **Fold 3** back down again so the turnips are on either side.

5. Fold **Fold 5** around the back and fold **Fold 6** over the top. Then tuck the paper tab into the corner of the triangular pocket you've created.

6. Fold down **Fold 7**, and then fold again at **Fold 8** to create a square tab. Tuck the tab into the pocket.

7. Fold diagonally across the square at **Fold 9**, really to create a square tab. Tuck the triangular tab into the pocket.

8. Start flicking the turnip at your enemies. The paper ones, not the real ones.

Hopefully, it looks something like this.
