BRAVELY DEFAULT™ II

Add up the total number. If you got:

**93 or Above:
Berzerker**

One of the mightiest jobs, Berzerkers specialize in swinging enormous axes to devastating effect. Once it's safe to do so, you have a date with your local axe-throwing range!

**Between 89 and 92:
Beastmaster**

You say hi to dogs walking down the street before their owners, don't you? That's the classic move of a Beastmaster. Your connection to the animal world is only rivaled by your love of cute cat posts on social media.

**Between 85 and 88:
Vanguard**

You love attracting attention with your cool style, flashy moves or entertaining videos. Like a Vanguard, you know how to use your internet fame to help others and make the world a better place.

**Between 81 and 84:
Dragoon**

As a Dragoon, there is no pointy object that you can't master, be it spears, lances, tridents ... or the occasional chopstick when eating takeout sushi!

**Between 76 and 80:
Monk**

While others like powerful weapons and accessories, Monks are all about simplicity, choosing to enter battle with just their bare hands. Want to make cookies? No need for that fancy electric mixer when all you need is a bowl and a wooden spoon!

**Between 72 and 75:
Swordmaster**

You are the master of the blade – both the sword variety and the kind you use to smother your bagel in delicious cream cheese. Mmmmm...

**Between 67 and 71:
Shieldmaster**

With a vast arsenal of protective equipment, you keep allies safe from harm with a wide variety of defensive skills and techniques. Sticks and stones don't break your bones since they won't even get close to you!

**Between 62 and 66:
Black Mage**

If you knew how to do magic (wait, do you?!) you'd excel at this offensive type. Light up the stove with some Fire spells, or charge up your phone battery using a well-placed Lightning attack. This kind of magic always comes in handy!

**Between 51 and 56:
Freelancer**

You are adept at using all sorts of equipment, whether it be using your smartphone to take selfies or your laptop to upload videos. Your adventure through life is made easier due to your numerous talents in a wide variety of skills.

**Between 46 and 50:
Salve-Maker**

Grab your favorite ingredients and make yourself a healthy smoothie. As a Salve-maker, you can combine items to create entirely new ones – and you do so with confidence and style.

**Between 41 and 45:
Pictomancer**

When you put paint to canvas, you create an artistic masterpiece so powerful that everyone is hypnotized by its beauty. This is great if you are battling enemies in an RPG, but it kind of backfires when you try to show your art to your friends and they all end up passed out on the floor.

**Between 36 and 40:
Thief**

You might be a Thief, but the only thing you've really stolen is everyone's hearts.

**Between 33 and 35:
Red Mage**

While others might have trouble deciding what skill they want to excel in, you don't have to worry. As a Red Mage, you can do (and have) it all! Want to play piano while standing on your head and reciting the alphabet backwards? We're sure you can pull it off with ease.

**Between 28 and 32:
Gambler**

As a Gambler, you rely on a little bit of luck to get through the day. That long-lost missing sock didn't just turn up by coincidence!

**Between 23 and 27:
Spiritmaster**

Have you ever had a feeling that someone was following you down a dark hallway? Are you certain that moving curtain wasn't the wind? You most likely possess the powers of a Spiritmaster, someone able to summon ethereal beings from the beyond.

**Between 18 and 22:
Bard**

Is creating or listening to music your favorite thing to do? If so, the life of a Bard is for you. By performing songs that will affect the world around you, the literal power of music soars to the top of your personality chart.

**Between 13 and 17:
White Mage**

The life of a White Mage is one of loving support. On a video call, you are always the first to ask how everyone is doing. If given the chance, you would drop everything to make sure your loved ones are happy and healthy.

**12 or Below:
Oracle**

Wait, you knew this was going to be the result before you even took the quiz, right? As an Oracle, you can manipulate time and space itself, sometimes even predicting the future. Time to buy a lottery ticket!
