

How to assemble:

Kids, ask a grown-up for help!

1. Carefully cut along the pink line outlining Jibanyan.
2. Wrap the crown around the top of your head to find your desired size.
3. Hold the crown in place and take note of the pink lines that coordinate with your size.
4. Make a small cut into one pink line on each side of Jibanyan's image - taking care to only cut as far as the line extends.
5. Insert the two cut slots into one another to secure the piece.
6. Proudly wear your crown!
