

# PRINTABLE FROG MASK DECORATION

**\*Kids, ask a grown-up for help with scissors!**

- 1** Cut out the frog mask along the dotted lines.
- 2** Carefully cut out the middle part along the dotted lines. It may help to gently fold the mask in half lengthwise to make it easier to cut.
- 3** Tape or paste the frog decoration to the front of the Safety Cap from your Nintendo Labo: VR Kit. Be sure to line up the middle part you cut out so it lies up with the matching arch on the front of the Safety Cap.
