

How to make a Luigi-o'-Lantern

Kids, ask a grown-up to help you apply the stencil and carve the pumpkin.

- 1** Cut out a lid on your pumpkin, then scoop out all the gross innards.
- 2** Trim the excess paper around the stencil. Leave a least 1/2-inch border
- 3** Tape the stencil to your pumpkin, then use a pushpin to carefully poke holes along the guide lines. Space the holes about 1/8-inch apart.
- 4** Remove the stencil and tape, then use a carving saw to cut along the dotted lines you make with the pushpin. Use carving tools to smooth out any rough spots.
- 5** Illuminate your Luigi-o'-lantern with a glow stick, jack-o'-lantern light, or candle (with adult permission, of course).
