

Easy-to-make egg holders

Kids, ask a grown-up for help with scissors!

1. Cut out egg holders carefully along the dotted lines.
2. Cut two slits where shown. Don't cut all the way through—just to end the end of the dotted line.
3. Attach the ends to make a circle. Slide one slit into the other, then use tape or glue to make it hold.
4. Gently place an egg in the holder and put it on display!
